

Home Learning for FABULOUS 4.1 from Mrs Turnbull

Every day, do some Numeracy work from your blue home learning folder.

Over these five days here are some activities you can do which will help you become even more of a fabulous independent young adult!

Make an Easter card using the blank card in your folder. What sort of things can you put on it that are to do with Easter?

Help an adult do a job. Could you help clean the table or make a drink? Try to help do something you have not done before. Can you draw a picture or write some words down about what you did?

Can you make a picture in your book all about the things you are good at? Draw yourself in the middle and add some words all about you all around it. What makes you FABULOUS? If you use a talker, put these words on your talker and say them to someone!

What is the weather like today?

Draw a picture or make a picture, or use words to describe the weather.

Draw / write /tell what your favourite weather is. Why do you like this sort of weather?

Have a look at the book in your folder. Can you read any of it, or say what is happening in the pictures?

Can you tell someone what you like about the book? Draw a picture or even write some words about the book.
